

VANI KAMBOJ

Senior Data Analyst

+91-6398162450 | vaanikamboj12@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Data Analyst with around 4 years of experience in Power BI, SQL, and Microsoft Fabric. Focused on building dashboards, organizing data, and supporting business decisions through clear insights. Experienced in developing automated reports, improving data accuracy, and reducing manual effort using data pipelines. Skilled in DAX, Power Query, and data modeling, with a practical approach to solving business problems and working with stakeholders.

SKILLS

- Visualization:** Power BI (Desktop & Service), DAX, Power Query, Microsoft Excel
- Programming:** Python (Pandas, NumPy, Matplotlib), Microsoft SQL Server
- BI & Data Management:** Data Modeling, ETL, Data Cleaning and Transformation, KPIs development
- Data Platform:** Microsoft Fabric (Lakehouse, Pipelines, Dataflows, Warehouse, Data Activator, SQL)
- Soft Skills:** Strategic Thinking, Decision-making, Problem-Solving, Client Communication, Stakeholder Engagement

PROFESSIONAL EXPERIENCE

Privue.AI | Senior Data Analyst |

Feb 2024 - Present

- Processed and validated large-scale datasets, improving **data accuracy to 99%+**.
- Developed automated Power BI dashboards, reducing manual reporting effort by **30%**.
- Managed data governance and security by implementing **Row-Level Security (RLS)** and access controls.
- Collaborated with stakeholders to translate business requirements into scalable data solutions.
- Built **automated data pipelines in Microsoft Fabric**, reducing manual processing time by over 40%.

Dream IT CS Pvt Ltd. | Data Analyst |

July 2022 - Feb 2024

- Designed interactive Power BI dashboards using advanced DAX and optimized data models.
- Leveraged SQL to process and optimize datasets for accurate reporting.
- Standardized raw datasets into structured formats for reliable analysis.
- Developed complex **DAX measures and calculated columns** to handle intricate business logic and tricky calculations for KPIs and trend analysis.
- Built advanced analytical features including drill-down, drill-through, and what-if analysis.

PROJECTS

Ministry of Corporate Affairs, GSTIN & Taxpayers Analysis

MS Power BI, MS Fabric and SQL

- Optimized large-scale Power BI datasets and calculations to improve report refresh times and **maintain high performance** despite complex transformation.
- Built end-to-end ETL pipelines in Microsoft Fabric to support centralized analytics.
- Published datasets and reports from Fabric **Lakehouse directly to Power BI**, enabling **real-time insights and faster decision-making**
- Implemented data quality checks to handle nulls, duplicates, and inconsistencies.

Dabur Sales Analysis

Microsoft Power BI

- Created KPI tracking systems to monitor **revenue trends, product performance, and profitability**.
- Integrated **DAX-driven KPIs**, enabling approximately **30% faster decision-making** by providing real-time business insights.
- Structured and optimized data models to enhance reporting accuracy and usability.
- Developed **Power BI dashboards** showcasing **YTD, MTD, LY Total, and Growth Metrics**

Temperature Monitoring

SQL, Python, MS Power BI & MS Fabric

- Built an end-to-end temperature monitoring solution by extracting data using Python, processing it through Microsoft Fabric (Lakehouse and Warehouse pipelines), structuring it with SQL, and delivering real-time insights through Power BI dashboards.
- Developed a **Data Activator in MS Fabric** to monitor data events and trigger automated E-mails.
- Applied data modeling techniques to clean and organize temperature data, establishing relationships for

more effective analysis.

- Performed data transformations like merging, appending, and pivoting the temperature data using **Power Query Editor**.
- Published Power BI reports on temperature trends and insights to the **Power BI Service** and configured **gateway connections** for live updates.

Insurance Analysis

MS Power BI, Dax Studio, Report Builder, MS Fabric

- Experienced in building reports, Dashboards and KPI using Microsoft Power BI.
- Built ETL workflows using Python and Microsoft Fabric pipelines for structured data processing.
- Used many transforms, tasks on business requirements and established relationships.
- Worked on the Power BI reports, dashboards and establishing connections using **Microsoft Fabric**.
- Developed paginated reports for detailed and formatted reporting.

EDUCATION

Post-Graduation Program in Data Science

Analytixlabs, Gurugram (2021-2022)

Bachelor of Commerce (ACCOUNTING & STATISTICS)

CCS University, Meerut (2017-2020)

CERTIFICATIONS

- **Microsoft Fabric-A Deeper Dive** - End-to-end course on Data Integration, ETL Pipelines, Lakehouse, Dataflows, and Analytics Automation.
- **Data Analysis by Microsoft** - Comprehensive course on Excel, SQL, Power BI, and Analytics fundamentals
- **MS SQL Server by HackerRank** - Comprehensive certification covering **Intermediate and Advanced SQL** concepts, queries, and data management techniques.
- **Data Analysis in Python by IBM** - Comprehensive course on Python programming, Pandas, NumPy, data cleaning, visualization, and analytics fundamentals.
